MOUNTAINEER

1959

Theme

From Registration to Graduation—a chronicle of the past school year at Mount St. Michael Academy — such is the 1959 Mountaineer.

During the past ten months, the Mount has been the scene of a vast number of events which make up the school year. Many of these events and the joys, sorrows and tribulations which they have produced are, we trust, captured in the words and pictures of this year's edition of the Mountaineer.

The school year at the Mount is, however, not just a series of swiftly passing events. These events—the myriad activities here recorded—are simply the steps which serve to develop and to train the spiritual, intellectual, social and physical qualities of the student.

All of these activities are meant to help form Christian gentlemen who will be prepared for their journey through life — a life in which the years 'From Registration to Graduation' are a small yet a significant part.

NEW YORK

Principal's Message

Dear Graduates of 1959,

The Marist Brothers of Mount Saint Michael extend to you and to your parents sincere congratulations. Four years ago with high hopes and ambition you entered "The Mount." We trust that this journey terminates with a sense of satisfaction justified by the achievement that graduation signifies.

However, you may have already viewed the past in retrospect and regretted that the progress has fallen short of your expectations. This experience is common to all who strive manfully to fulfill high ideals. Storm-tossed emotions continually disturb the even tenor of our lives. Man must ever cope with human frailty. Disappointments and failure are the lot of each of us.

We often overlook the fact that conflicts faced with courage and faith strengthen the fibers of the soul. Strength and integrity unfold in the crucible of suffering. In the final analysis God's grace determines the growth of wisdom within us.

Significant years have passed. Your childhood days, particularly, have been vital because the foundation of character rests on the lessons of early youth. No school nor faculty exerts an influence comparable to that of your parents. To them you owe an undying debt of gratitude.

Gradually, as the formative years draw to a close a man is revealed. You are now that man. But the end is not yet. The mind must continue to enlighten and strengthen the reason and increase your power to think. All your strivings, however, will prove ineffective unless accompanied by progress in virtue. As a Catholic gentleman go forth embracing a wider horizon, striving to permeate every activity with the spirit of Christ.

Sincerely yours in J.M.J.,

Brother Leo Vincent

Our Campus

To the people of the Neighborhood, the Mount represents twenty-two acres of recreational facilities, but to the student body, the Mount represents much more. The buildings are not just meaningless stone edifices, but rather they represent living monuments to the past, homes for the present student body, and shining goals to future Mounties.

We say that the Campus is a home, and it is. It is a treasure house of memories, of scenes that time will not efface. What memories are locked in the Quadrangle, home of those spirited punchball games—and who can deny that McGovern Field holds many vivid memories of past victories?

The Buildings are quiet now, the Quadrangle is empty, and the crowds have deserted McGovern — but if you listen closely, you may still hear the eager football fans, still see the nervous faces of the punchball team, still sense the quiet activity of the now darkened classrooms. Yet if these memories do exist for you, they are only the result of the teamwork of every faculty member and each student, each and everyone responsible for making the Mount the success it is.

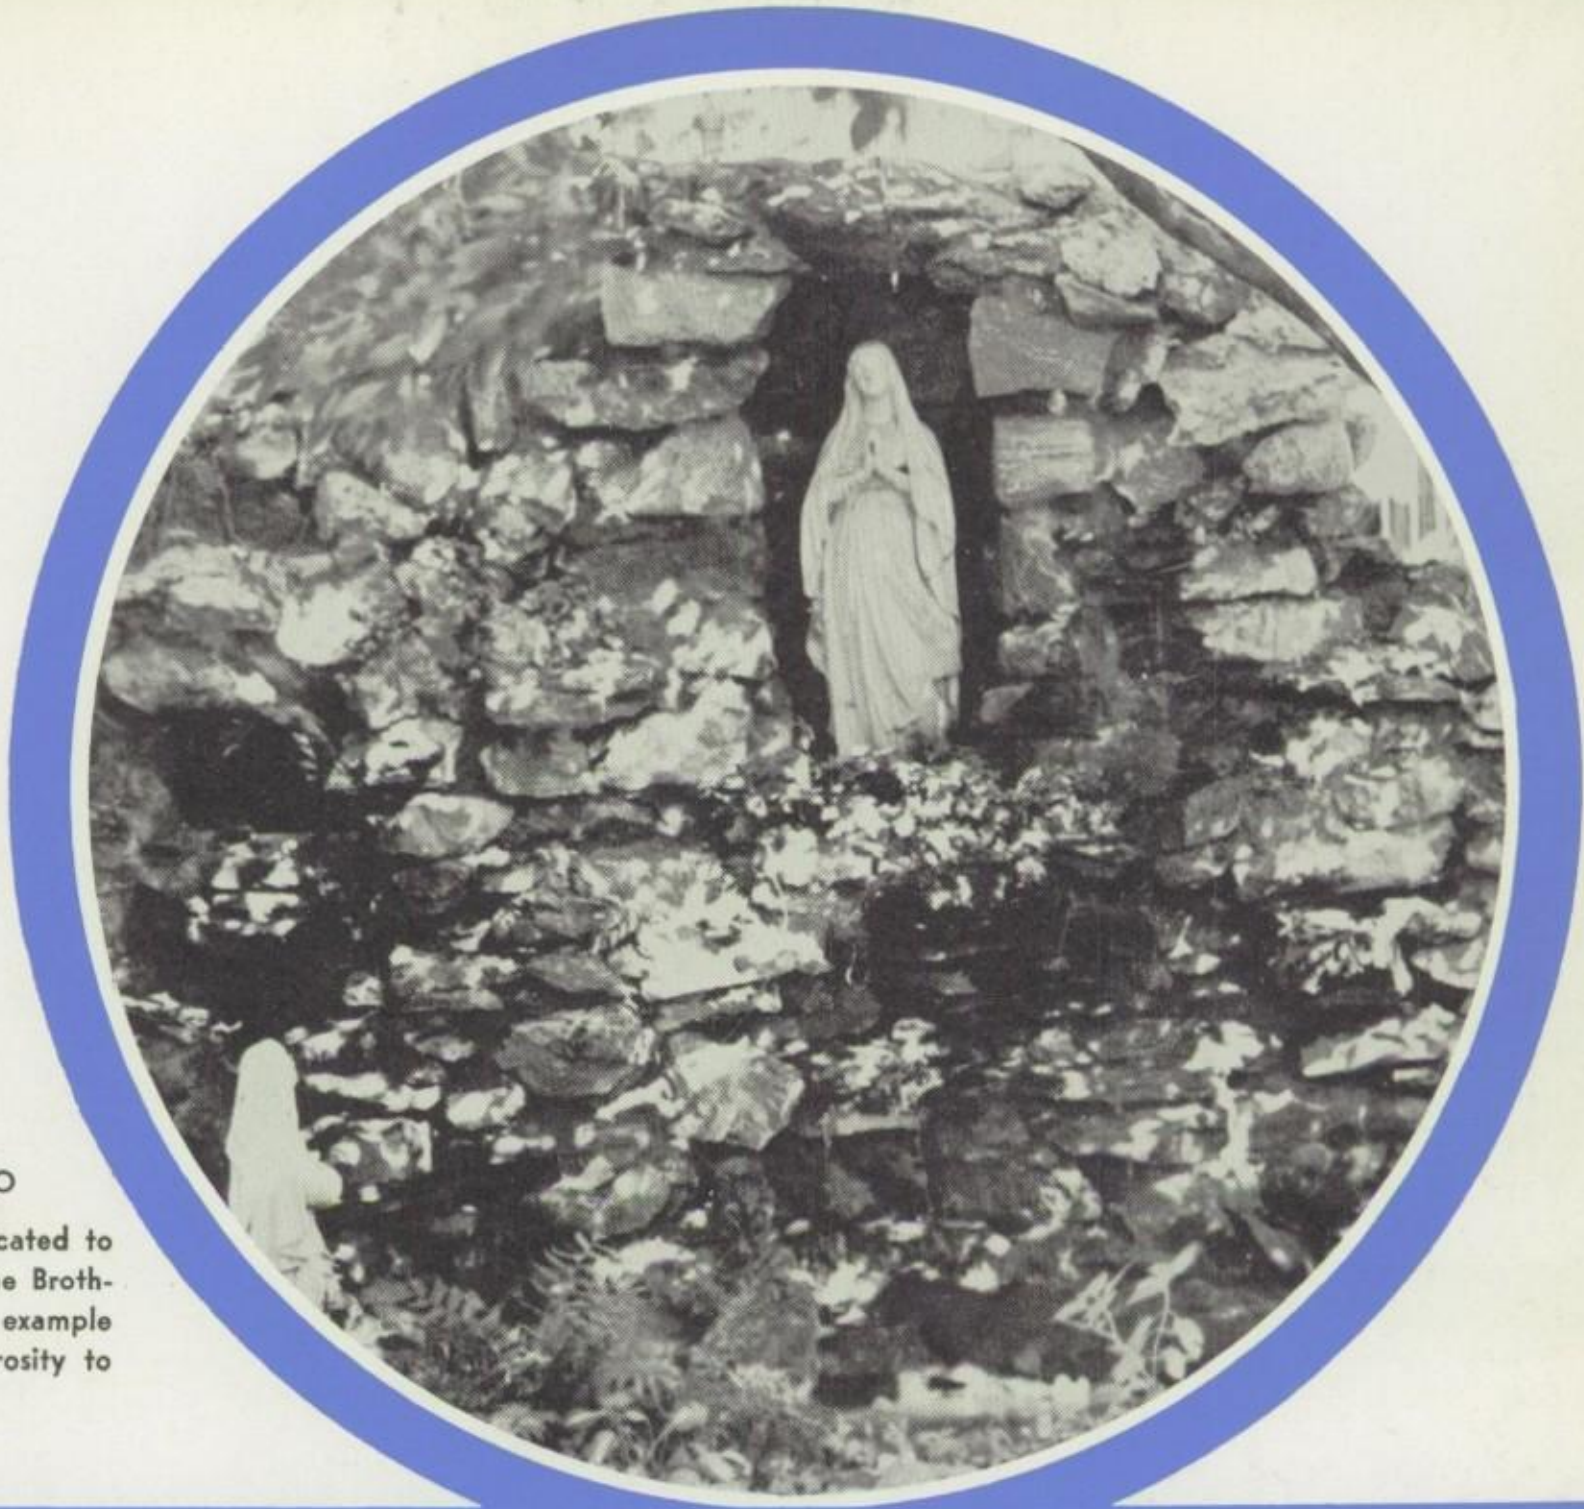
Campus Views

ST. PAUL'S HALL

The resident students dormity, St. Paul's Hall, has accommodations for over two hundred boys. A Gym as well as other recreational facilities are provided in the basement of the four story building.

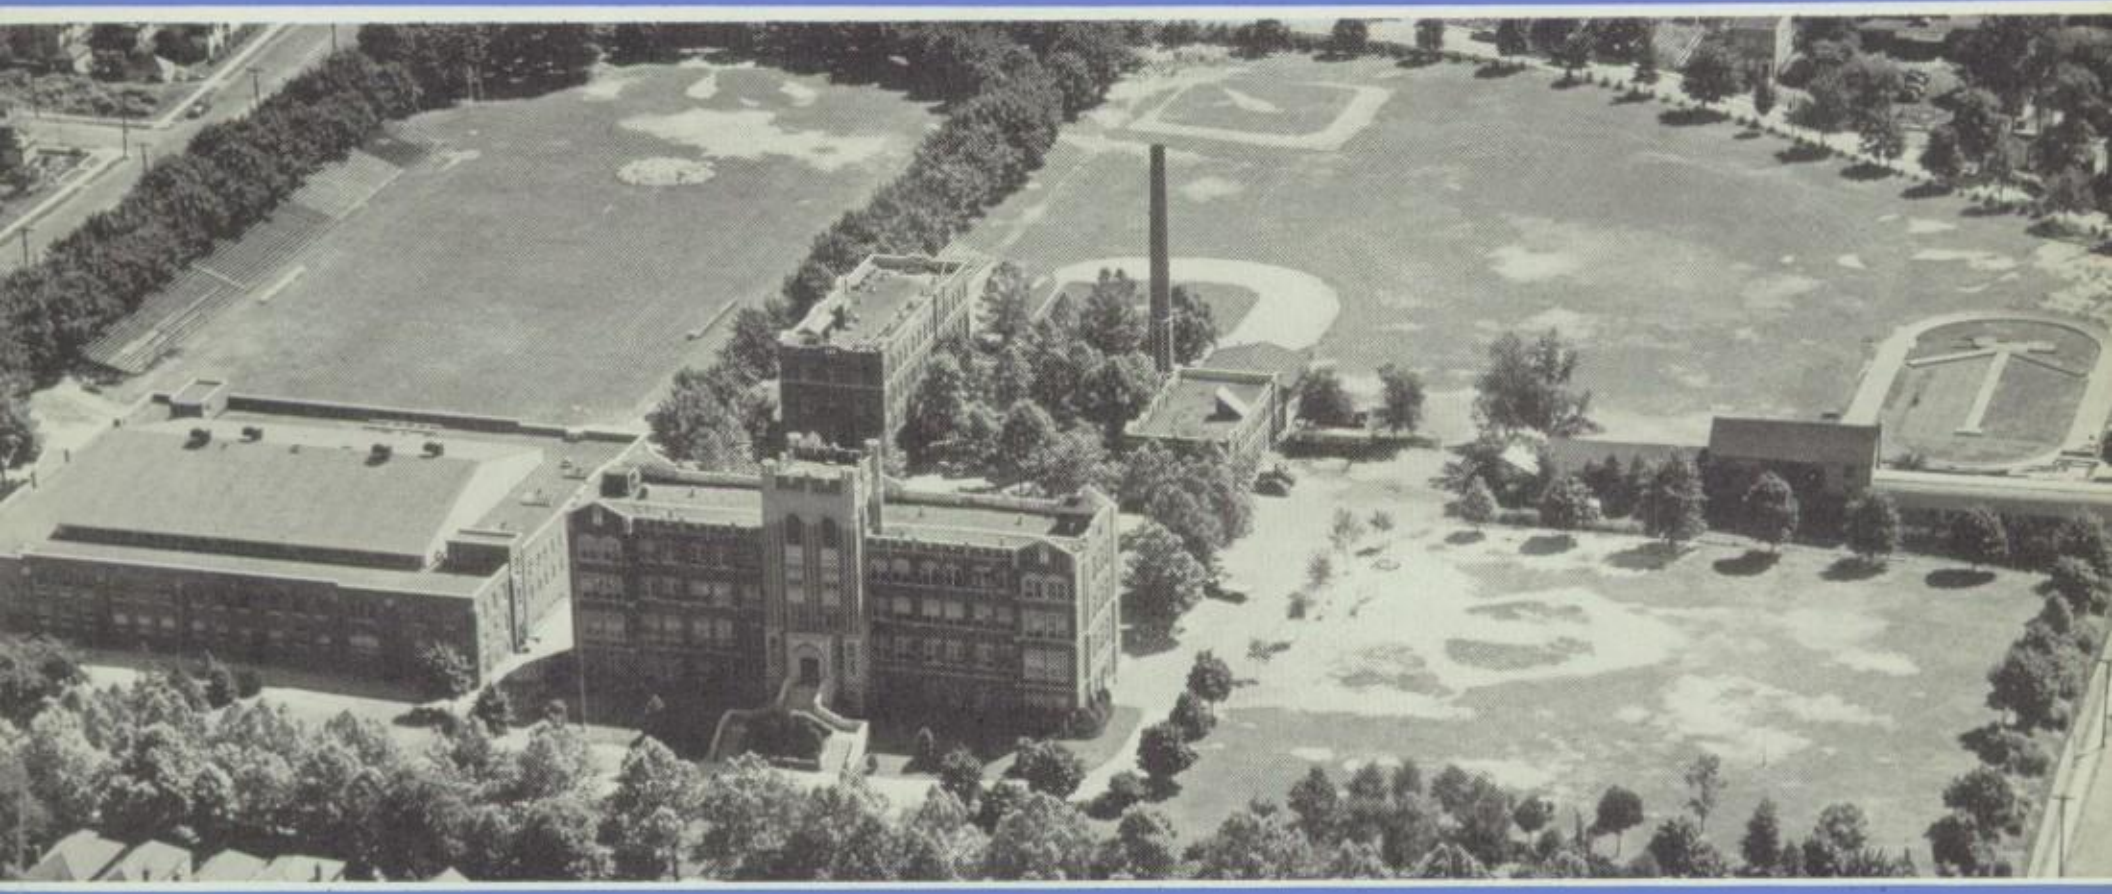
CHAMPAGNAT HALL

The faculty residence, pictured from the Brother's garth, is named for the founder of the Marist Brothers. A two story addition appeared in 1956 to accommodate the growing faculty.



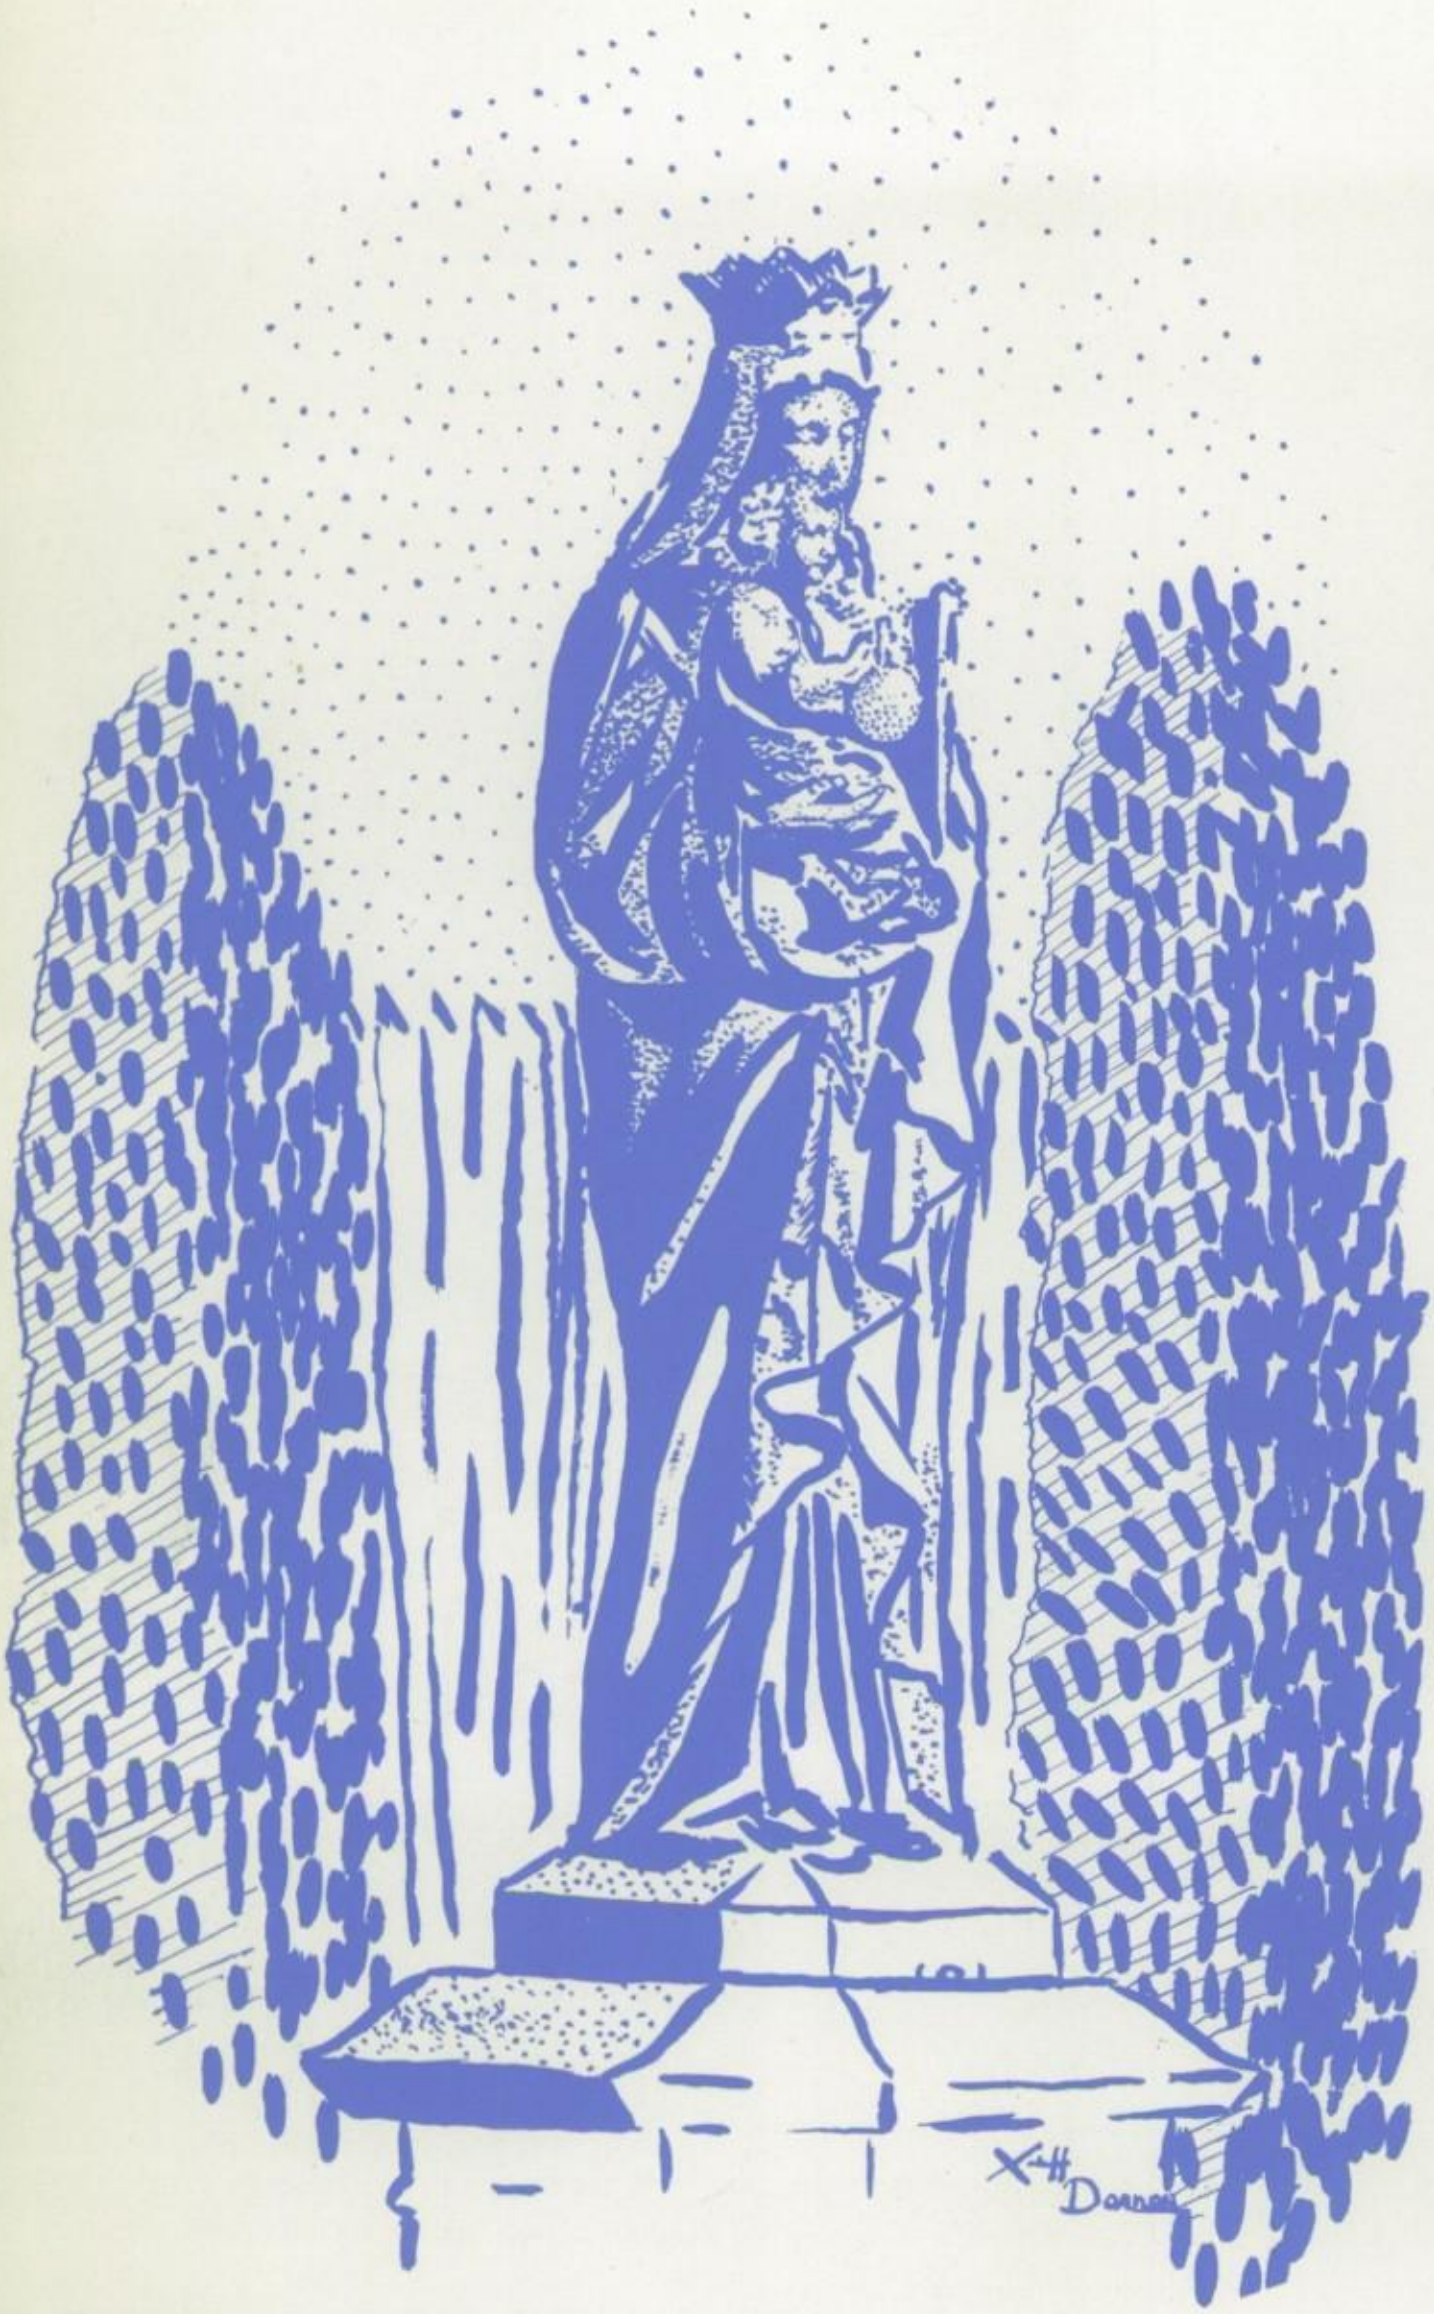
LOURDES GROTTO

This beautiful shrine dedicated to Our Lady is located in the Brother's garth and is another example of the Men's Club generosity to the Mount.



MOUNT CAMPUS

An aerial view of the twenty-two acre Mount campus. In the upper part of the photograph is seen McGovern field, the Brother Timothy Daniel Memorial track and the two baseball fields which provide adequate recreational facilities for all Mounties.



QUEEN OF THE MOUNT

May and early Fall finds the student body assembled in the Quadrangle before their Patroness, reciting the Rosary.

MEMORIAL GYMNASIUM

Mounties have good reason to be proud of the Memorial gymnasium, the largest in the city. Used for recreational purposes it can easily be converted to serve as an assembly hall. The gym is also the scene of some of the outstanding social events of the school year.

MEMORIAL BUILDING

Built to honor Mounties who gave their lives in World War II, the Memorial Building houses the largest gym in the city as well as sixteen well-equipped classrooms, the Brother Albert Gustave Memorial Library, the cafeteria and recreational facilities for the resident students.

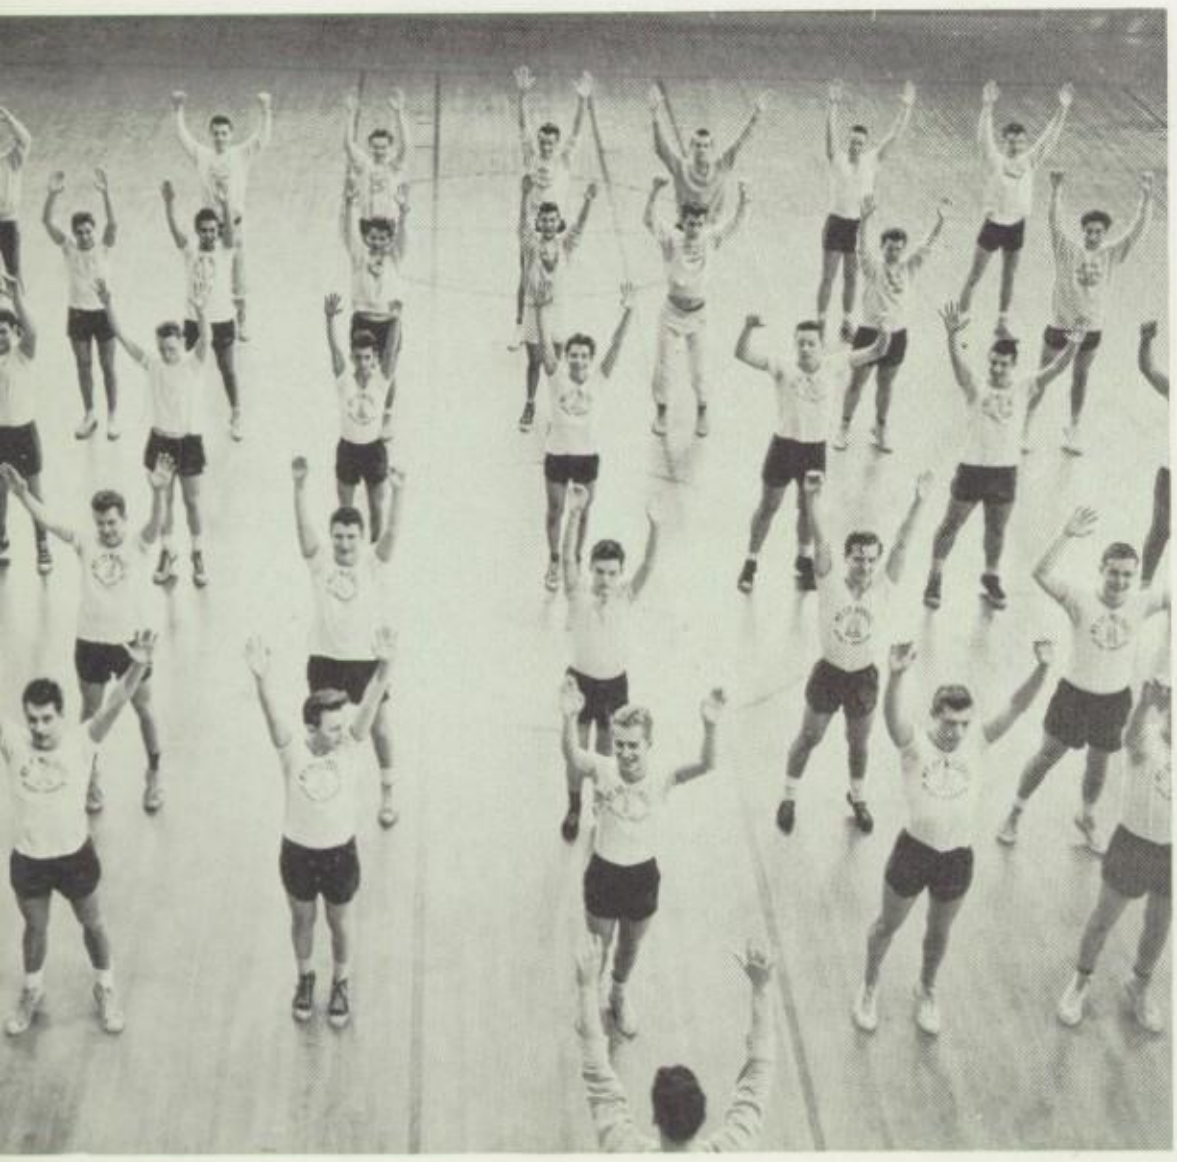
Academic Life

Academic life at the Mount strives to develop sincere, practical, Christ-minded men equipped with the required knowledge and convictions to assume their place in the ranks of the Catholic laity. With this end in mind Religion plays an important part in our high school curriculum. In addition to the academic subjects which aid the students intellectual growth, a course in Physical Education, which aims to develop in each boy a consciousness of the value of teamwork and personal fitness, is required. This program aims at the developing of the character of the whole Christian man and not just one segment of him.

The well-rounded development of each student at Mount St. Michael is insured by the special emphasis placed on personal attention which takes into account individual differences of character and talent.



ENGLISH

The skills to efficiently express ideas in writing and in speaking coupled with a familiarization and appreciation of certain cultural areas, particularly that of good literature, are the aims the teacher of English endeavors to instill in his students.

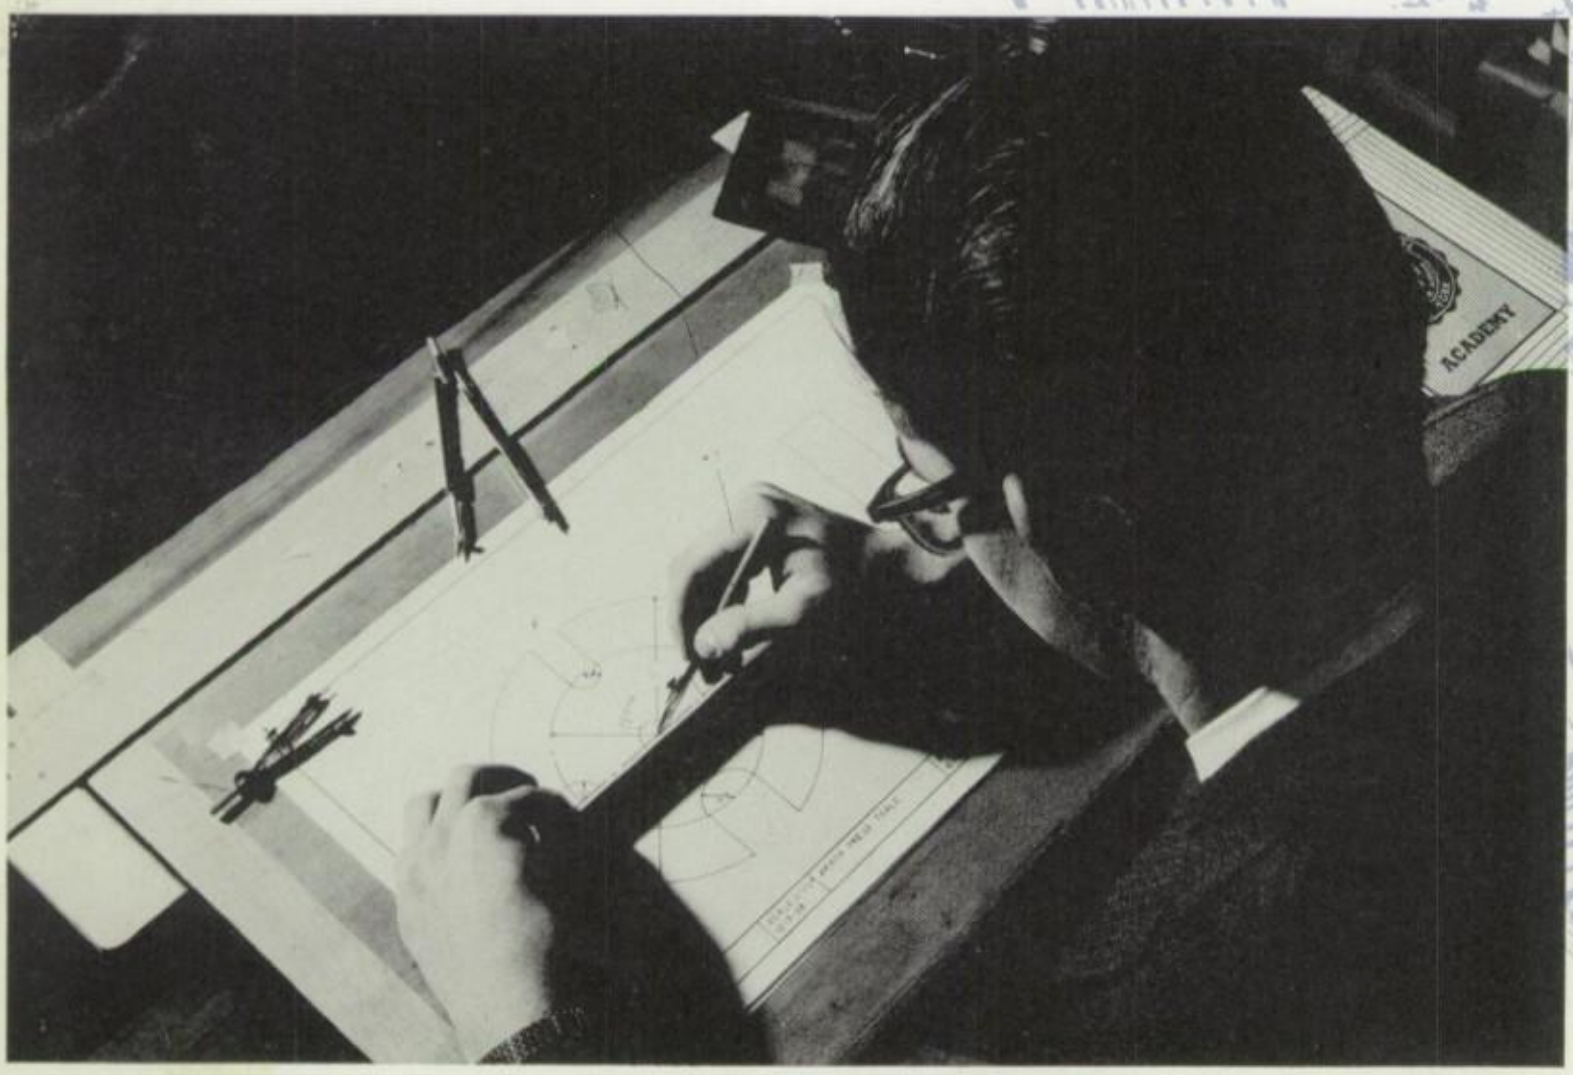
MUSIC

The Band, an integral part of the Music Department, was organized by its present conductor Dr. J. Arthur Reuther. The organization now numbers seventy-five boys. The Department enables students to avail themselves of a musical education by offering private lessons to those who desire to learn music.

It is the aim of the Music Department to foster in the students a love for and appreciation of the beautiful as expressed in music.

GUIDANCE

About five hundred students and their parents used our individual guidance interview service under the direction of Bro. Lawrence Joseph. In addition to the Homeroom Guidance Period the Department sponsored meetings with college representatives for the benefit of the upperclassmen and a series of aptitude and achievement tests for the entire student body.



MECHANICAL DRAWING

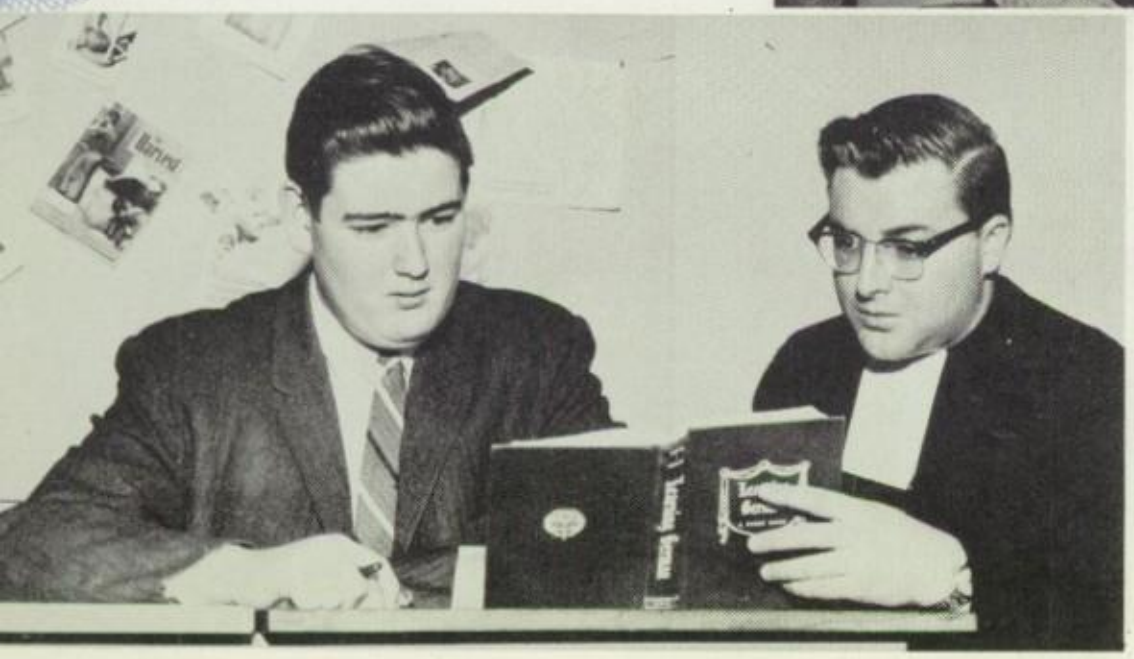
The aim of this course is to familiarize the student with another medium of expression, drawing. Engineering and science enter so forcefully into the affairs of the every day life of the student that it would be very difficult to properly interpret the events and progress made in these fields without some knowledge of the language of industry, mechanical drawing.

LATIN

After studying the grammatical basis and elementary foundations of Latin in the first year, the Freshman advances to Latin II. In the second year the student pursues a systematic study of such works as the Argonauts and the Commentaries of Caesar. In Latin III the selections of Cicero are studied, while in fourth year the student encounters Vergil's "Aeneid." The varied purposes of the study of Latin are a classical cultural foundation, mastery of grammar, the discipline of the student's mind, and preparation for the requirements of later professional and intellectual life.

FRENCH

"Aux etoiles par le travail!" This French version of the Mount's motto was well executed this year. Freshmen were taught the basic rudiments in vocabulary, Sophomores were introduced to the labyrinth of irregular verbs while the Juniors received publications which furnished them with living vocabulary in religion, science and sports.



SPANISH

A man who knows two languages is worth two men. Our Spanish Department endeavors to accomplish this stupendous mission by offering to our students a well organized course of the language along with a better understanding and a deeper appreciation of the enchanting and vivifying Spanish culture. Our motto is, "Remember the 'Good Neighbor Policy' ".

GERMAN

A class of erudite Seniors and Juniors were brave enough to pit their talents against the new German course offered by Bro. Myles Eric. This advanced class of students learned the basic principles of the German language as well as the history of the German people. Next year the Department hopes to expand its program and thus avail its services to more qualified students.

TYPING

Interested upper classmen who can fit it into their program may elect to take the typing course. Modern methods and equipment are employed to teach the students the fundamentals of typing. This course has proved popular with practical minded Seniors who look forward to their college years when they will be required to produce type written term papers and reports.

MATHEMATICS

Both required and elective courses are offered Mount students by the Mathematics Department. For Juniors and Seniors there are a variety of electives, among which are Trigonometry, Eleventh and Twelfth Year Math and College Math.

Through the courses they offer the Mathematics Department hopes to train its students to think clearly and concisely and to inspire many to enter fields of endeavor where mathematics is important.

HISTORY

The History program has been recently revised to include a year and a half of World History and two years of American History. The extended treatment of World and American History allows time for more careful perusal and greater attention to reading and research. The aim of the program is to develop interests which the student will follow all his life and which will serve to give him a greater understanding and appreciation of the socially significant events which play such an important part in shaping the destiny of men and nations.

SCIENCE

A study of man and the forces that make up his environment is put before the Mount student by the Science Department. A general background is provided by the Freshman course and a study of man and those living things which surround him is presented by the second year course, Biology. Chemistry and Physics round out the program with a study of the inanimate compounds and the forces that control them.

This year the new modern well-equipped Biology, Chemistry and Physics labs have aided, and will continue to aid Mount students in their scientific endeavors.

After getting over the shock of our first few hectic days at the Mount, we settled down in room 2 for what has proved to be a very good year. Once accustomed to the do's and don't's of school life here on Murdock Avenue we proceeded to make a name for ourselves . . . We have accomplished many things of which we are proud. The students of I-A have been very active both athletically and scholastically. We sent the largest representation to the Freshman football team. Among our gluttons for pigskin punishment were J. McCarthy, R. Crotti, Al Fernez and R. Spina. While these men represented us in football the track stars, led by class President D. Conca, went on to place high in the intramural competition . . . I-A is proud of its three musicians, Korbet, Blum and Stone, who are producing golden notes for the school band . . . With members of the class also in the Sodality and the Poster Club is there any reason why we should not be proud of our accomplishments? Although surrounded by Sophomores and having Brother Roy for two periods, we have managed to survive the year . . . Even our homeroom teacher, Bro. Robert Jerome, is happy (???) with us.

FROSH B

Prompted by our overseer, Bro. Thomas Anthony, 1-B has gone out and bested the other Freshman classes in almost every activity. For example we had the biggest showing in ticket sales for the Hayes game and we did a tremendous job in the canned food drive . . . Athletically we are tops. After sending not less than eight of our number to Frosh football, we contributed J. Millo and F. Thomas to basketball. Rounding out our sports representations were J. Cotter, R. Monaco, and M. Alvardo who answer the starter's gun for Howie Borck. With the supervision of our official Bro. Thomas Anthony and the high scoring of J. Colon, J. Sasport and J. Tinari, the Intramural Basketball Championship is within our reach . . . Regarding intellectual pursuits, we also lead the field. Activities-wise, we have Bettine and Duggan in the band and Crino, the artist, in the Poster Club. Scholastically, we are the eggheads of Freshman Year. Our scholars include: Hayer, R. Raus and K. Dougherty . . . In conclusion we would like to state our class motto, "One for all and all for the Mount."

FROSH C

Here we are, the class you've been waiting to see.
Here we are, the greatest class there will ever be,
The cunning, colossal, courageous Freshman class C.

We the stalwarts of 1-C in order to introduce ourselves, the finest class in Frosh year (and modest, too) to you lucky, lucky reader make the following statements about our achievements and man-power verified by class president, M. Yarchak. We are the class with the most school spirit and the only Freshman class to win a School Spirit Plaque, mainly because there is only one plaque presented in each year. We won this plaque because of the gentle(?) prodding of Bro. Laurence . . . We have given members to the Band, Sodality and various athletic teams. Particular praise to our classmates who made the honor roll and won half-year scholarships through incessant study and abundant gyp slips . . . We started off the intramural football season by winning our first three scrimmages in splendid fashion. At this point, however, our hoopsters were called to the hardwood and left us to be eliminated in three games. We managed to repeat this feat in the intramural basketball competition. To insure a pleasant school life we, the members of class 1-C propose the following "Bill of Rights"—Freedom of Speech (in the classroom), Freedom from Homework and Freedom from Punishments (especially such punishments as "The Educational Value of the Totem Pole.")

FROSH D

A cloud of smoke engulfed the science lab, Bro. Felix was again showing 1-D some of the wonders of science. From 9:00 A.M. to 2:30 P.M. many things happen in room 7 of the freshman side. They do so, for this classroom is occupied by 1-D, the most active class in Freshman year. Upon arriving at the Mount, the members of 1-D were anxious to bolster the school's extracurricular activities and we have done just that . . . Class President Joe Bonarego, accompanied by Trezza, Spadotto, Hunt and Quinn, has helped to pad the ranks of the Mount orators. 1-D has also contributed to the Mount's sports world by sending M. Quinn to Frosh football, D. DeWitt and H. Stampur to Freshman basketball and Kean and Nortapole to the track team . . . Intramural-wise, 1-D has been a tough competitor all the way. After just missing the intramural football crown, we turned to basketball and are now on our way to clinching the championship . . . Like all Freshman classes, class 1-D has its favorite period. Ours is homeroom guidance. Supervised by Bro. Roy William, our homeroom teacher, we have many group discussions, which turn out to be very humorous. This period plus the other six combine to give the occupants of room 7 many an interesting day.

FROSH E

Welcome to the most talked about (others might say talkative) class in Freshman year . . . We might not be first in M.I.T. . . . or Hayes game sales, or honor students, but we do have our good points . . . G. Griffiths, J. Picorelli, C. Harman and J. Sweeney represented 1-E on the Frosh gridiron . . . Representing 1-E in basketball were T. McElligot, G. Griffiths, and E. Reynolds (manager) . . . However, 1-E is not entirely musclebound . . . Debaters P. Fino and A. Celenza represent 1-E in the Forum . . . R. Passanante and his magic fingers represent 1-E in the band . . . Members of the Sodality include G. Badia, A. Stietzel, J. Bishko, R. Charriez, and Class President A. Smith . . . Class 1-E has the distinction of being the only class in the school with its own newspaper . . . Under the direction of Brother Patrick Anselm (our official) and P. Fino (our esteemed editor) it has provided many moments of enjoyable reading . . . In closing we would like to state that we do not profess to be the best class in Freshman Year—but probably the greatest!

FROSH F

As the letter F is first in finest so is class F finest in Freshman year . . . It is well represented in the activities, with Edward O'Neill on the football team and Robert Stroney and George Ackerman on the basketball team. The class also submits its share to the honor roll and honor society . . . In intramurals class F was first in football and track. Its school spirit well distinguished itself with the collection of 76 cans of food for the annual food drive and the sale of 40 tickets for the Mount-Hayes game . . . Joseph Tripodi, class president, and John Marcogliese, vice-president, control the class and are aided by secretary and treasurer Harold Donnelly. Lets face it, 1-F is the frosh class of the year.

Bottom: J. Gilbude, C. Colo, L. Grassi. Row 2: J. Marcogliese, J. Pezzello, J. Tripodi. Row 3: J. Vecchione, J. Astuto, E. O'Neill. Row 4: R. Stutzin, S. McConnor, F. Ferruzzi.

FROSH G

We are the loyal Mounties of class 1-G,
Always activity to a T,
In all school activities, including M.I.T.,
One outstanding class is 1-G.

Well formed Catholics, citizens and scholars are shaped in 1-G . . . During this past year we had one of the best scholastic records in Freshman year . . . In intramurals our class ranked among the top teams in first year. We also contributed a number of athletes to the various school teams . . . For spiritual nourishment many 1-G'ers joined the Sodality of Our Lady . . . The gang in 1-G has developed into loyal Mounties. We have given our support to the intramurals and although we did not take many trophies we did manage to capture second place in the intramural track competition. Our hoopsters battled their way into the semi-finals only to be eliminated after a hard fought game.

Here's to the class with the name 1-G,
Of which there is no match for loyalty,
May they go down in history,
As loyal Mounties, these Frosh of 1-G.

So we're isolated, Ha! We'll have you know that although we are not situated near any of the other Frosh classes, we are located a skip and a jump from the gym, a scant away from the cafeteria, and most important of all, we are right next to the exit. Our homeroom teacher happens to be Bro. Myles Eric, moderator of the Poster Club and Soph Sodality and our class officers are A. Principi, Pres., F. Fuchs, Veep., A. Pesch, Treas., and W. Kenning, Secretary . . . Regarding activities our class has nothing but sportsmen. We have gridders J. Conway and Tony Principi; hoopsters, J. Mastrangelo and W. Henning; and speedsters, R. Martinez and W. Yauch. Our intramural basketball team is well led by co-captains L. Nesteri and C. Nivello . . . Although we have not taken many awards we do have a spirited and hard-working group in I-H . . . Class spirit is exemplified by the numbers of boys in extracurricular activities and by those who wear the gold and silver honor pins each month . . . We are looking forward to our Sophomore year hoping that we'll move from the isolation of the first floor of the Memorial Building even if it means sacrificing our strategic position near the cafeteria and exit.

They said it couldn't be done . . . to create a well-rounded class in a Bio lab sodden with formaldehyde from three periods of crayfish dissection. However, they were wrong. Though we take on a greenish hue when we enter our homeroom, under the leadership of Bro. Denis Ghristopher, we are determined to stick it out . . . Our class President is R. Ganzales, football player and marbles champ, on whom the blame for all class foolery is placed. Many matters are handled by our class treasurer, Gary "Shylock" Biunno . . . Numbered among the members of our class are five Sodalists. Also, Bro. Jude's right hand man in the Photography Club is from 2-A . . . Ed Regazzi, one of the few Sophomore varsity players for Howie Smith, calls 104 his homeroom . . . Scholastically we did not do badly as can be seen by the fact that our friend and benefactor Bro. Patrick Eugene has awarded a number of honor pins to members of the class. We believe that for the most part we have exhibited fine class spirit, which was especially during the intramural contests. Although we didn't win many games we were good losers.

As you scurry about the corridors of the Memorial Building, upon reaching the foot of stairway one, you are suddenly overpowered by a wave of whispering which seems to be coming from room sixteen. Amid this tumult can be heard the benign muttering of Bro. James Francis lost in the tranquility of a peaceful meditation . . . Braving the storm of **sound,** you peek in the door just as Brother comes out of his "transfixation" to restore order over the protests of class President Fred Bisogna and Tommy Higgins . . . Amid this peace and tranquility, financial wizard George Jones collects for the missions. With this accomplished our music makers leave for band practice . . . Meanwhile, in the locker room, J.V. hoopsters Malozi and Hutter prepare for a game, along with Borckman headed by Staylmazyk getting ready for practice at Van Cortland. In football our class led the school with such greats as Higgins, Bisogna, Hamilton, Ferrilo and Giannone. We can proudy point to our Sodalists while our two aspiring young Rembrandts, Pariseau and Cussack doodle their days away at Poster Club meeting . . . "Intramural basketball knows of none better" says Lacey, 2-B's representative at National talkathons, of our team. As you wend your way back thru the halls, the curtain falls on another day in the life of class 2-B.

SOPH C

On September 8 the mutinous crew (class 2-C) of the S.S. Ambrosian watched this proud ship slide down the ways. Its captain, Brother Joseph Ambrose, ruled the ship and crew with a monarchistic democratic set of laws which had a generous sprinkling of tyranny . . . From the outset the crew was determined that the voyage would go down in the annals of the Mt. St. Michael Admiralty, either for better or for worse. Preferably for worse . . . During the first weeks of the 10 month journey across the stormy "Education Sea" from Port Ignorance to Intelligance Harbor, Michael Perri was elected first mate. This was done in complete disregard for the dignity of the office. Class 2-C, it will be noted, won the shipboard intramural football games by conniving, forfeiture, and other dastardly illegal means. An ugly rumor has it that we won it by skill . . . Getting back to the problem of making maritime history, the crew set out by contributing five future champions to the track team, seven Beethovens to the band, four crew members to the Sodality, six Atlases to J.V. Football, two giants to J.V. Basketball, four to the Forum, and seven to the scholarship class . . . At journey's end when the ship arrived at Intelligence Harbor, the crew was a changed group. Pseudo-intellectuals, superb athletes, and people with irresistible ambition and drive were among those who walked down the gangplank and out into the world.

In the midst of a bellowing sound from our neighbors in room ten, on an otherwise quiet day in September our class was formally introduced to a well celebrated figure at the Mount, Bro. Kevin Aloysius, our homeroom teacher . . . Many an "intelligent" question during religion period has been answered with his most vivid choice of words so as to leave the questioner without a doubt—"Well, what do you thing, hum??" . . . However, as our intramural football coach he left Rockne with much to desire . . . If you want to know where Army got the idea for its lonesome end it was from 2-D. The only difference between Army's system and ours is that we used a quarterback, in the person of D. Crisci, who found himself quite lonesome after we had taken our first two losses . . . Our rare combination of scholars and sportsmen have amazed the faculty. Five 2-D men represented our class on the gridiron while Pugliese and Kulls lent their talents to the hardwood sport. Our five Forum members account for the noise you may hear before first period. These members of the class along with our three Student Councilors add a touch of color to the melting pot in room 8. All of the above mentioned students plus our Band members, Sodalists, Thespians and numerous honor students contributed to our winning the coveted school spirit plaque at the Christmas assembly.

Sound the trumpets. Roll the drums. Roll out the red carpets. It's that grand old class, 2-E, the pride of Sophomore Year and the backbone of extra-curricular activities here at the Mount. Located in what is affectionately termed "Cell Block 10" we venture forth daily to do or die and then return to the outstretched arms of our beloved homeroom teacher Bro. Timothy Paul. We may not be first in everything but we sure do try . . . Returning to the activities, we have D. Haas, L. Ruggiero, P. Grossi, and F. Scheffler in football; T. Conlon, P. Grossi, M. Daleyano, R. Esposito, and Silva in track; G. Kull and D. Curran in basketball . . . On the spiritual side we have F. Scheffler, P. Grossi, D. Dailey and M. McDonough in the Sodality ;and finally for all of our other unspeakable activities we have just about everybody in Bro. Francis Michael's detention club (CLUB???). These members of the class, for some strange reason, wish to remain anonymous. Perhaps we're not the outstanding class in Sophomore year but we have made our contributions to the Mount spirit.

"What's the password?" . . . "Sohcahtoa" . . . "Enter." The above conversation takes place between the guardian of the door and all who seek entrance into that Famous, Fabulous, Fun-loving class "Sophomore F" . . . A hearty "bwong" arises to signify all are present as a tribute to our guide, into the realms of geometry, Brother Paul Andrew. With a good beginning behind us we forge into the days walk with all its trials, tribulations and charming faculty personalities . . . Looking around the class one can see evidence of the great amount of school spirit possessed by the students of 2-F. Interest in extra-curricular activities nets us eleven Sodalists, two Student Councilors, three Dramatic Club members, six Poster Club, Photography and Science Club members, seven Grid stars, three hoopsters, four harriers, and three baseball stars. Also many have won pins for their scholastic achievements . . . All in all 2-F is a group of hard working Mounties who have contributed much to the Mount. Needless to say all this has been accomplished under the watchful eye (sometimes too watchful) of our esteemed I.D. Card-snatching homeroom teacher Brother Damian Gerard.

Hughes had the task, class history to write
He could spell and at times was seemingly bright
Told to be careful and do his best
And to make sure to keep egg off his vest.
Make sure to deal with only the truth
Never mention to Alice you saw Jim with Ruth.
Praise the guys on the school eleven
The four in the back and the big front seven.
Sneak Conlon's name into the story somehow
Then ask Scott to take a bow.
Relate about DeRosa and his typical wit
And how many times the class had a fit.
Speak briefly of Frank and his difficult time
Making class each morning by the tolling of nine.
The good work of Brother in keeping things fair
And all of the chit-chat in the lunch time square.
The good times we all had surveying World History
How at marking time some eyes grew hazy and misty.
Get into the picture the big school nine
Whenever they won we felt fine.
Though the story soon closes, let each have no fear
More study, start now for the best Junior year.
May we never cease thanking all our Mount Brothers
Teachers, confessors, our fathers and mothers.

This literary classic was written by one who wishes to remain anonymous. Any reference to any living person or place is purely on purpose . . . I am a member of class 2-H. The boys of 106 are capable of anything—even such an absurd and horrifying thing as a completed homework or up-to-date notebook . . . Although we are not among the highest in scholastic rating a few of our boys, by means of incessant study, aboundant gyp-notes and teachers with failing eyesight, have managed to make the honor roll . . . 2-H has ambition plans to capture the Intramural Basketball Championship. By liberally bribing officials and thru the leadership of Bro. Jude Robert the team has managed to make its way to the finals . . . Our class has a good representation in the Sodality while Manjorin and Buckley are in the Forum . . . Was it really true that Tom Kelly was finally caught eating candy??? Some of the J.V.'s outstanding players are 2-H men. T. Burderi, W. Dowd, J. Dornan and A. Radogna. On the track team we find a hard working pole vaulter in the person of Jeff Dornan who also lent his artistic talents to the yearbook staff.

Seated: R. Abbondanza, S. Cardassi, W. Bebert, P. Walpole, L. DeFrancesco, P. Puleo, C. Ferrara. Row 2: T. Burderi, R. Chiabrera, J. Hill, J. Manjorin, M. DeGiorgio, J. Flaherty, J. Dornan. Row 3: W. Dowd, R. Cuva, M. Firelli, V. Maggio, J. Orlando, T. Glassey, J. Pettigrew.

JUNIOR A

Heading the class roster of undergraduates is 3-A; this group of stalwart young adolscents aptly introduces a fine group of future Monnt graduates. Indeed, our class has interests varied as the Mount's extra-curricular activities will permit. We have representatives in every school activity, each doing his share to keep up the Mount's high standards . . . Our physical prowess is typified by the five gridiron heroes from our ranks: R. Buckner, V. Argentino, A. Bausch, D. Cannon and C. Boccia; while speedsters Benyou and Bianco lend their talents to the track team. Our intra-mural football team had a fine season and our hardwood quintet is a strong contender for the Junior Crown . . . In intellectual pursuits, 3-A is well represented on the honor roll, with N. Cappazolli leading all of Junior year scholastically. O. Arcuni's golden voice is a great asset to the oratory team, while G. Campell has achieved distinction in debate. Our shrewd student councilors, J. Carey and R. Buckner, made our class a powerful lobby in school government . . . without a doubt, the well-rounded class of 3-A is in every way an asset to the Mount.

JUNIOR B

This year's Jùnior Class B has made a name for itself in more ways than one. The spirited lads from room 403 have themselves known both in athletic and intellectual activities. . . Focusing on the football world we have D. Corelli and next year's captain D. DeMatteo on the varsity eleven. On the hardwood we have B. Dentato and J. DiBartolo while on the cinders there is T. Cloidt and R. Coogan. 3-B has also shown its power in intramurals. Our football team led by J. Cirocco and P. Curran easily captured the championship . . . Intellectually we have L. Cassera strengthening the Mount Forum while Chovaniec and Cirocco are members of the Tower. Coangelo and Depiazza are part of the Mount Band while Derrico is the "TOM EDISON" of the Science Club. While our homeroom teacher, Brother Brendan Lawrence was away at basketball practice, DeMatteo and Coogan were the chief executives. 3-B's scholars, Cirocco and De Matteo, each received half-year scholarships . . . 3-B's achievements were well rewarded at the Christmas assembly when we were presented the school spirit plaque.

JUNIOR C

Junior Class 3-C can be called the most cooperative class in Junior year. Take the canned food drive for instance, we were the only class to average one can for ever ythree boys. . . When Brother William Ignatius gives one of his monthly tests, cooperation can be seen throughout the classroom. Speaking of Brother William, our class is the only Junior class which possesses a homeroom teacher who is never home . . . During the football season G. Eichler, M. Fizgerald, F. Erbacher and J. Garry can be seen representing 3-C on the gridiron. Two of our classmen comprise part of Mount's hardwood quintet. They are G. Eichler and T. Eivers of the varsity basketball team. Lending their talents as orators to the forum are the 3-C mouthpieces, B. Duffy, J. Doyle, A. Fulvini and R. Furst. R. Guiliano and A. Falivini, along with R. Furst, are trying for Emmy Awards in the Dramatics Club . . . Approximately one third of 3-C is in the Sodality. Class speedsters are J. Dugan and T. Flynn of the Track team. Doing their best to keep Mount students abreast of the latest news are A. Fulvini, R. Furst and W. Gantenbein of the Tower. As you can see by our list of activities, 3-C is doing its best for the Mount.

JUNIOR D

On the fourth floor of the main building there exists a newly converted Chemistry lab, the home of class 3-D. This class, often called inimitable and immortal, (mainly by its own members) is very fortunate to have many participants in extra-curricular activities . . . Among the outstanding is D. Holborn, Student Councilor and fleet-footed fullback for the Mounties. Other members of the football squad are P. Guarino and R. Hofler. 3-D's contribution to the track team consists of R. Grimaldi, C. Hartman and J. Korkey. We are well represented in the Sodality by J. Hynes, R. Kirwin and R. Guarino. R. Greco, a veteran member of the Forum and Tower, ranks high scholastically in Junior Year. . . The class officers are D. Holborn, A. Imperato, R. Greco and R. Guarino. Class 3-D will long be remembered as a top contender in intramural activities, placing second in football, and third in basketball. The spirit of 3-D is well exemplified by its showing in the competition for the school spirit plaque . . . Much of the success attained by our class is due to the guiding spirit of Brother Maurice George, who with his understanding heart and alert mind has achieved wonders with the material given him.

Seated: W. Gruenstrass, R. Kirwan, R. Kearney, J. Hetman, G. Herman, B. Kelly, R. Goldleaf. Row 2: J. Gondola, E. Kassay, E. Harrington, N. Kinsch, D. Holborn, J. Kopilak, P. Hilzen, G. Henderson, G. During the summer vacation the Mount faculty toiled endlessly to form a class to be the elite of Junior year, and through mathematical calculations, astrology and somewhat by alphabetical order they created the class—Junior E . . . The class as a whole won the distinction of being the first Junior class down to lunch 98% of the time . . . Honorary class membership has gone to "Little Johnny Jones" and "John J. Nobody" . . . Class notables include the brain-brawn combination of Richie Maiberger, football star and scholarship winner; the memorable Guiseppe, in the person of Nick Longo, from the school play; Sodality officers Stan Lazarczyk and Bill Leonard and Mike Mastronardi, varsity football manager. John McCann did some great track work . . . On the intramural scene we played about .500 ball all around and although we didn't win we showed teamwork and spirit . . . Why is Malus so agreeable? . . . During the year we always managed to have at least 35% of the class on the honor list . . . At lunch period during the winter months you could always spot a 3-E man . . . He wore a coat. All in all we did have a great class with a bit of comedy, tenseness and the like creating harmony between teacher and students.

JUNIOR F

"It takes all kinds to make a world" is the saying which best typifies the men of 3-F. The class other classes look up to, our roll looks like the index to "Who's Who at the Mount." There's O'Reilly, the boy who has managed to keep up his 50% attendance average for the last three years; Palumbo the question man; Peterson the finest example among us; Pavone the old philosopher and President Niessner, whose election is said to have been backed by the mob . . . Our spirit is unquestionable. The activities at the Mount are well supported by our number and our total sale of tickets for the Hayes game surpassed all other Junior classes . . . When intramural time rolled around, we just couldn't get off on the right foot and were eliminated while changing feet . . . Our year hasn't been outstanding but there have been times when we have held our heads up high (looking at the clock probably) . . . We are not a pessimistic class, but some things bother us like: What happened to Guidance Period? How accurate is the Mission System? Where is Perry?

JUNIOR G

Although class 3-G may not be top in the intellectual department, we make our bid for "All Junior Year" through the numbers of G-men dispersed in extra-curricular activities . . . Athletically speaking we have Posli, Samora, and Salice on Howie Smith's all-stars; Ed Scott, and "Sam Samora" with the cagers; "Sleeping" Sharkey and his legs out for cross-country; and Ross, who migrates toward the Mount diamond every spring, where he catches "flies" with a swatter instead of a glove . . . Intellectually 3-G is represented on the Forum by Serio and his golden tonsils, in the band by Pierno, Piombo, Pulchinski and Ryan; in the photography club by John Serevezza, last of the tall men, who does most of the picture taking for the Tower and Mountaineer; and in the poster club, science club and Sodality by numerous other G-men . . . Our intramural team was sabotaged! The other classes stole our Wheaties. However, we have long since wised up. Since we can't hide our Wheaties, we bribe the referees . . . The above facts plus our sparkling personalities make 3-G the pride of Junior Year.

JUNIOR H

As one thumbs through the records of the eight classes making up the junior year of 1959, he is bound to stop at the place reserved to 3-H—it's the last one on the list . . . Under Bro. Patrick Roch's leadership, 3-H has prospered into the gem of Junior year, contributing almost every activity . . . 3-H has sent A. Viggiano and V. Sullivan to varsity football; Artie Valdes to a starting berth on Jim Klingel's outstanding basketball team; musical prodigies R. Vecci and R. Stoeppler to the band; future Barrymores, J. Treglia and M. Tarranto to dramatics; numerous others to the Sodality, Forum, poster club, and honor roll; and practically all of us to Bro. Francis Michael's detention class . . . Intramurals saw the boys from 305 get off to a bad start but rebound back in basketball, labeled as the team to beat for the trophy . . . As a final note, a message to the Sophomores who will occupy the battered walls of 305 next year—keep in memory the "fantabulous" class of 3-H and watch out for their secret gyp-note hideouts.

JUNIOR PROM

The beginning of an evening long remembered.

Promenade—the Grand March begins.

The Queen and her escorts—proud Mounties who had the prettiest dates.

An unforgettable evening was provided for the class of 1959 by the Junior Prom committee. Amid decorations appropriate for the theme, "Around the World in Eighty Days," the Mounties and their dates danced in the Memorial Gymnasium which was changed into a ballroom for the occasion. Large paintings depicting the exotic places of the globe were placed throughout the gym. These along with the beautiful ceiling and table decorations provided a proper setting for the prom, the social highlight of Junior year. Our thanks to those who made this event one of the most enjoyable during our years at the Mount.

Alex Corini and date could have danced all night.

Alan Sim and his escort enjoy a pleasant interlude.

Student Council Secretary J. Ahern expresses thanks for the Junior Class to Brother Gilbert, moderator of the Prom.

"Shall we dance?"

Mrs. LaRusso crowns the Queen of the Prom.

"My fair lady."

. . . but the memories linger on.

MOUNTAINEER

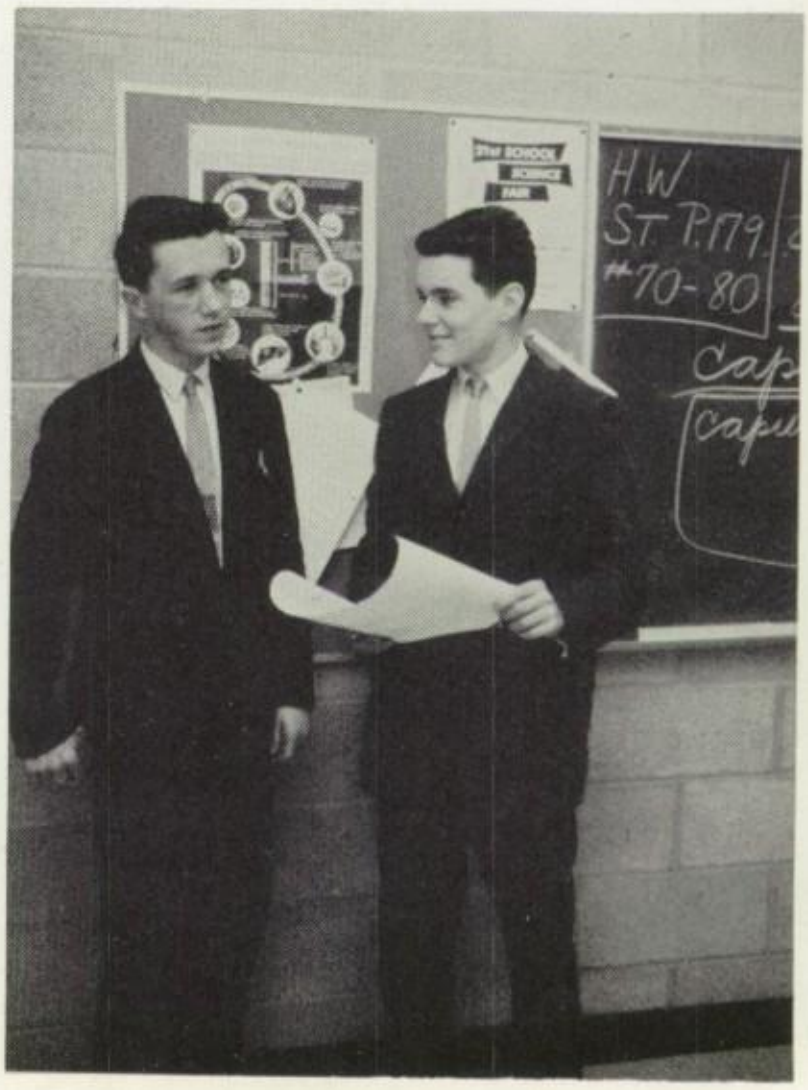
Seated: V. Carilli, T. Cotter, W. Walsh, J. Broderick.
Standing: C. Niessner, N. Branca, J. DeSalvo.

Many were the headaches and long were the hours spent in preparing this 1959 edition of the MOUNTAINEER. Under the direction of Brother Kevin Aloysius and Brother Laurence Christopher, this year's staff, headed by Editor-in-chief, Thomas Cotter, have given many of their holidays to yearbook work.

Last year's edition of the MOUNTAINEER garnered a first-class rating from the Columbia Scholastic Press Association. The staff hopes that this present edition will serve to help keep alive many treasured memories of the 1958-1959 school year.

The staff's task could not have been achieved if it were not for the excellent assistance of the Photography Club and the cooperation of the members of the faculty. For this assistance the MOUNTAINEER staff is very grateful.

Editor T. Cotter and artist J. Dornan discuss yearbook plans.



SODALITY

Father Austin Mohrbacher, assisted by James Kenny and James Cianci, as he offered the Bryzantine Mass early in March.

Our Lady's Sodality is one of the most important and active organizations at the Mount. It aims at fostering in its members an ardent devotion, reverence and filial love for the Blessed Virgin Mary. The Sodality, throughout the year, sponsors various activities which help mold a more Christ-like society. Through weekly meetings and dialogue Masses their aims are achieved.

The highlights of this year's events were the Sophomore and Junior closed retreats and the days of recollection. The Sodality sponsored the annual Victory dance and other social events, the May Devotions, their annual food drive for the Little Sisters of the Poor, a Byzantine Rite Mass and the hour of Adoration on the feast day of Our Lady of Lourdes. They also perform charitable works, such as helping at the annual orphan's Christmas party and assisting the staff at the La Valle school for the blind.

FORUM

Sparked by the leadership of their moderators, Brother Edward Lawrence and Mr. Louis Zuccarello, the members of the Forum have enjoyed another highly successful season. The high point of this years activities came here at the Mount when for the second year in a row the members played host to the Catholic Forensic League's Grand Tournament. Making a creditable second place showing in this event the Mount team qualified six members to attend the National Finals in Washington, D. C.

January 31st — National Forensic League Student Congress. Michael Chovaniec was elected Speaker.

February 12th — New York Forensic League Contest: first in original oratory and dramatic interpretation.

February 21st — New York University Debate Tournament. Mount debaters finish second after winning twelve straight debates.

February 27th — Jim Gaffney wins Bronx County and New York City American Legion Contest.

February 28th — The Mount team placed first out of twenty-four schools in the Siena College Debate Tournament.

March 21st — For the second year in a row the Mount plays host to the Catholic Forensic League's Grand Tournament. Mount speakers took the second place trophy. Six team members qualified for the National Tournament in Washington, D. C.

DRAMATICS

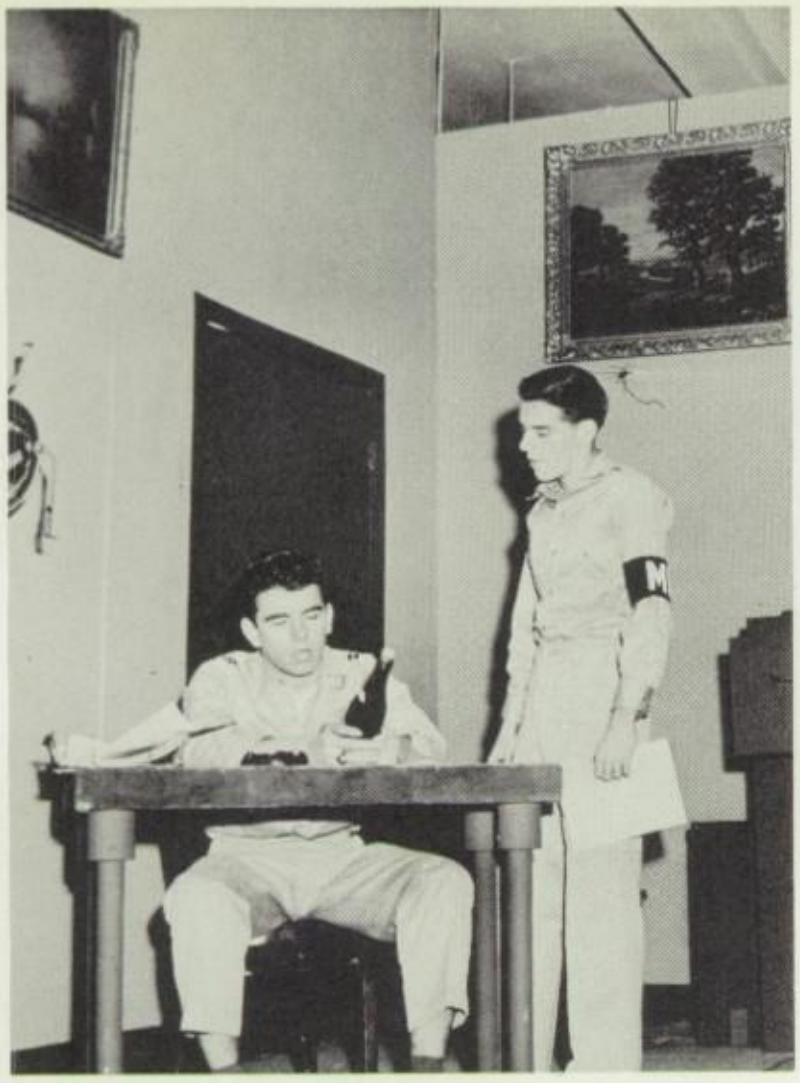
"You think the ordinary peasant is our enemy? Nuts! The enemy is the bunch of crooks that where here in City Hall."

"Father you must believe me when I tell you that Americans want only to bring good to the town of Adano."

"Please Americans! Have pity on me! I am not a true Fascist! I would only like to be Mayor of Adano."

Inspired and coached by Brother Stephen Anthony with the assistance of Brother Joseph Ambrose, the members of this year's Dramatic Club well distinguished themselves. Their annual presentation this year was A BELL FOR ADANO, a Pulitzer prize winning novel by John Hersey and was adapted for the stage by Paul Osborn. Bart Sowul played the part of the idealistic Major Joppolo, who meets various difficulties as he puts into operation his own ideas about democracy in a small Sicilian town. He was ably supported by pleasure-loving Captain Purvis (Ray Mohr) and vacillating Sergeant Borth (James Gafney). Nick Longo nearly stole the show with his portrayal of Guiseppe, Major Joppolo's chief valet and shoe shine man.

The play was not only a success at the Mount, where it was practically sold-out three days before opening night, but was also a success at Marist Prep in Esopus, N. Y. The split-level staging was constructed by Brother William Arthur and his stagehands and the effective lighting arrangements can also be attribted to them.



"What do theye 'Eyetalians' put in their booze! Remind me to put this town off limits to all the troops."

"Do you hear what I said! I order you to keep all the mule carts out of the town of Adano!"

STUDENT COUNCIL

Under the leadership of President Alan Sim and guided by the moderator, Brother Daniel Andrew, the 1958-59 Student Council has many fine achievements to its credit, especially the organizing of well planned social events. The calendar of social events opened with a football victory dance. The turnout was most successful. A Christmas Dance and two well planned skating parties also spelled "success" for the Student Council. This organization was also responsible for planning and conducting the football and basketball rallies.

Despite the laborious task presented by an extensive schedule, the councilors continued their work of maintaining discipline in the school halls. In addition to this work the elected representatives of the student body filled the post of ushers at various school functions.

Various school activities and the accomplishments of the past year were faithfully recorded in THE TOWER. Devoted to the task of publishing seven issues a year, the members of the staff, under the capable direction of Brother William James, have maintained the high standards of past years by earning a First-class rating from the Columbia Scholastic Press Association.

As the deadline for each issue nears, an energetic group of editors, feature writers and reporters take over the activities room correcting copy and preparing headlines for the next edition. Although the majority of the members of the staff are Seniors, there are a number of Juniors who after gaining a year's experience will be ready to take over the duties of editing the school paper.

PHOTOGRAPHY CLUB

Variation is always a source of interest ;and this year the activities of the Photography Club have taken a new twist. For the first half of the year a small group of seven studied the finer points of photography. Knowledge of the camera, the art of composing interesting pictures, the techniques of developing and printing—all were made clear to these eager shutter-bugs by their moderator, Brother Jude Robert. Their un-selfish work made possible such publications as the TOWER and this issue of the MOUNTAINEER.

In the second half of the year, attendance was open to the whole student body. After a few general meetings, the group was broken up into six divisions which worked in the darkroom once a week to learn the exact nature of printing.

SCIENCE CLUB

Enthusiasm for the field of science spurs on the members of the Mount Science Club. The members of this organization, under the guidance of Brother Julian Ernest, are encouraged to do advanced experiments in the various scientific fields. Projects are decided upon early in the school year and they are perfected by the various Science Fairs held in the Spring. One group is working on a thrust-meter which determines the effectiveness of jet fuels, while other groups are studying bone formation and its relationship to calcium in the diet of various animals.

The club's radio enthusiasts have made good use of the new equipment acquired this year. They have contacted as far east as Kalingrad, Russia and as far south as the Easter Islands off the coast of Chile.

The school Science Fair, held late in April, gives the students an opportunity to exhibit their projects. The best of these are chosen to be entered in the Diocesan Fair. Though competition is keen in this event, the Mounties hope to equal last year's record of three citations.

Early in the school year, Brother Paul, our new librarian, re-organized the Mount Library Club. Although few in number, the members of this organization provide valuable assistance to Brother Librarian who has an overabundance of work.

Among the services of the club are the shelving and cataloguing of books and magazines, the preparing of recent additions to the library and the care of the pamphlet collection, audio-visual aids on file in the school library. Club members are on hand each day to lend assistance to students who are seeking library material for term papers or their class assignments and to charge out books.

POSTER CLUB

With the stroke of a brush and a dab of paint here and there, the members of the Poster Club turned out an unlimited number of posters and signs that spurred on every drive and encouraged all coming events. The club's successful promotion of the various activities has greatly contributed to their success.

Under the direction of Brother Myles Eric and guided by President Guy Ristoff, the organization has not only confined itself to school activities but has branched out to enter original posters in a variety of state and national contests. The activities of this little known, but hard working organization, have done much to foster good school spirit at the Mount.

Under the excellent direction of Dr. J. Arthur Reuther, our conductor, and through the untiring efforts of Brother Gabriel Francis, our moderator, the Mount Band has successfully completed another year of activity. During the early months of the school year, the eighty-one members mobilized and played host to our gridiron eleven sparking them on to victory by their unyielding support both at home and away.

The band's distinguished performance at the Christmas and Easter assemblies were appreciated by both the student body and faculty. After a successful Spring Concert on April 11th the members of the band prepared for their annual trip to our nation's capital for the National Music Festival at Catholic University of America.

In addition to the above activities the band has marched in a number of parades and has brought honor to the Mount wherever it has appeared. The rousing music provided by the band at the various school activities has contributed greatly to school spirit.

One of the most important events of the school year, is the four days which the Seniors spend on retreat at Monroe, New York. Conducted by the Jesuit Fathers, the four days at Gonzaga are spent in silence with special emphasis on prayer and meditation.

Senior classes began their retreat in January and the last group left shortly after the Easter recess. It is hoped that these short days spent at Gonzaga will provide guidance and grace for the Seniors of '59 during the years after graduation.

MOUNT MOTHER'S CLUB

Junior Chemistry student Doug DeMatteo provides a 'bang' for the members of the Mother's Club at the Open House held for them by the Science Department.

This association of the Mothers of students and alumni have given their time and talents to further the well-being of Mount St. Michael. Under the direction of their moderator, Brother William Bernard, they have sponsored highly successful card parties and a Mother-Son Communion breakfast in May.

The cooperation between the two parents' clubs here at the Mount has been a key factor in the success of the annual Bazaar which is jointly sponsored by these organizations. The contributions made by this group serves as a practical example of what can be done for Catholic education by dedicated parents.

Mother's Club officers Mrs. Riley, Mrs. Serio, Mrs. LaRusso, president; Mrs. Grimaldi and Mrs. Quaranta pose with club moderator Brother William Bernard at the Winter Bridge Party.

MOUNT MEN'S CLUB

Mount Men's Club officers with moderator Brother John. Mr. Edward Kuehnel, Recording Secretary; Mr. Charles O'Connor, Treasurer; Mr. Louis Rondina, President; Mr. Lester McGuire, Corresponding Secretary and Mr. Thomas Mannion, Vice-President.

The members of this organization have made many remarkable contributions to Mount St. Michael. After burning the mortgage on the Memorial Building last year, the Men's Club continued their efforts in behalf of the Mount at the Annual Bazaar and weekly social games in order to help defray the expense in the remodeling of the ground floor of the Administration Building. Their laudable efforts have resulted in modern, well-equipped laboratories as well as new grammar school classrooms. It is due to these men and their devotion to the Mount that the physical plant could be enlarged so that more boys would be able to receive a Catholic education.

From the Freshmen-Fathers Night held in the early Fall to the Block "M" Dinner held in May, a varied program of social events is sponsored by the Men's Club and these serve to bring parents, sons and teachers together.

FOOTBALL

Howie Smith's twenty-first year without a losing season did not begin too impressively. However, after the loss to Holy Cross, the Mount machine began to move and it rolled over New Rochelle, Iona and Stepinac with impressive scores. A dismal day greeted the Mounties as they were accompanied by eight busloads of rooters to the field of eventual league champions, Chaminade. The insistent drizzle proved to be a friend instead of a foe, for at half-time we led 12-8. Chaminade never could get started, and our offense backed up the defensive team by rolling up a score of 24-8. We were set for our next victory and the league title, but fate did not smile on our lone T.V. appearance. St. Francis edged us out in the closing minutes with the heart-breaking score of 28-20.

Broken in spirit, we fell to St. Benedict's as they toyed with us in gaining their 30-12 triumph. We came back with a roar though for the traditional Turkey Day Classic against Cardinal Hayes. Aided by Chuck Barr's juggling display, the team blanked Hayes at Baker Field, 14-0, a fitting close to a successful 5-3 season.

JUNIOR VARSITY

Opening the 1958 campaign under the direction of Mr. Joseph Tricario the Junior Varsity managed to hold a hard pressing Holy Cross team to a 14-14 tie. Tom Gillespie and Tom Higgins led the Blue and Gold scoring attack. The team then moved on to crush the Iona team by a score of 20-6. Coach Tricario's gridders then went on to defeat Stepinac 14-6.

A powerful Chaminade team then put a halt to the Mount's unmarred season by chalking up a 20 to 12 victory. The injury plagued Mount team rolled on to defeat Saint Francis Prep 22-12. On November 10 the Mount met its first non-league competition in the Evander J.V. Higgins, Doran and Hughes tallied for the Mount while Hamilton and Radgona intercepted Evander's passes. The final score was 33-0 with the Mount on top. In the final game of the season, played at McGovern field, the Mounties had little trouble in defeating Cardinal Hayes.

FROSH

Goal to go—except for Regniault, that is.

After dropping three straight games to Stepinac, Isaac Young and Chaminade, the Freshman football team bounced back to win their next two games. They avenged the varsity loss to St. Francis by downing the Terriers 12-0. Next they stepped on Stepinac by a score of 12-8 in their second encounter of the season. Loss number four came to Mr. Frank Burke's charges when a strong Holy Cross squad downed the Mount eleven 12-6.

Despite their disappointing record of two wins and four losses the Freshman team exhibited drive and spirit in their encounters and showed by the end of the season, that they had the potential for a smooth running team after grasping the fundamentals of play.

The 1959 season saw a brightening of the basketball picture at the Mount. The Varsity quintet, coached by Mr. Jim Klingel, topped its finest season in a full score of years with the Westchester C. H. S. A. A. Championship title. The unofficial county crown also came our way as we went on to whip the W. I. A. A. champions, New Rochelle High School. With an overall record of sixteen wins and six losses, the Mounties closed out their peak performance this side of 1940.

Marty Conlon, a six foot five inch Senior, led in the area scoring race with twenty points per game average and both Captain Conlon and center Phil Quaranta copped the All-Division C. H. S. A. A. laurels. Michael Borelli, another Senior, Artie Valdes and Ed Scott, two Juniors are also part of the starting quintet.

After copping the Westchester title and thus making their way into the city playoffs, the team went on to finish its season by losing in an overtime to Power Memorial, rated as one of the best teams in the New York City area. In the tournament at Fordham, the Blue and Golds second half rally fell short as they lost to All Hallows, the city champions.

CROSS COUNTRY

The 1958 Cross-Country team led by co-captains, Joe Sullivan and Al Marchiselli was the finest in Mount history. The Mount runners never finished below third place in a meet, and won fourteen trophies, including first place in the Bronx-Manhattan-Westchester Division and the Private School Run. The season ended with a second place in the City Championships.

The JV team was undefeated in Cross-Country competition. The highlight of the season was a first place in the City Championships. Although the Freshmen did not fare as well as their older teammates, they showed great promise for the future.

Both teamwork and individual effort have made this year's Cross-Country team one the Mount can be proud of.

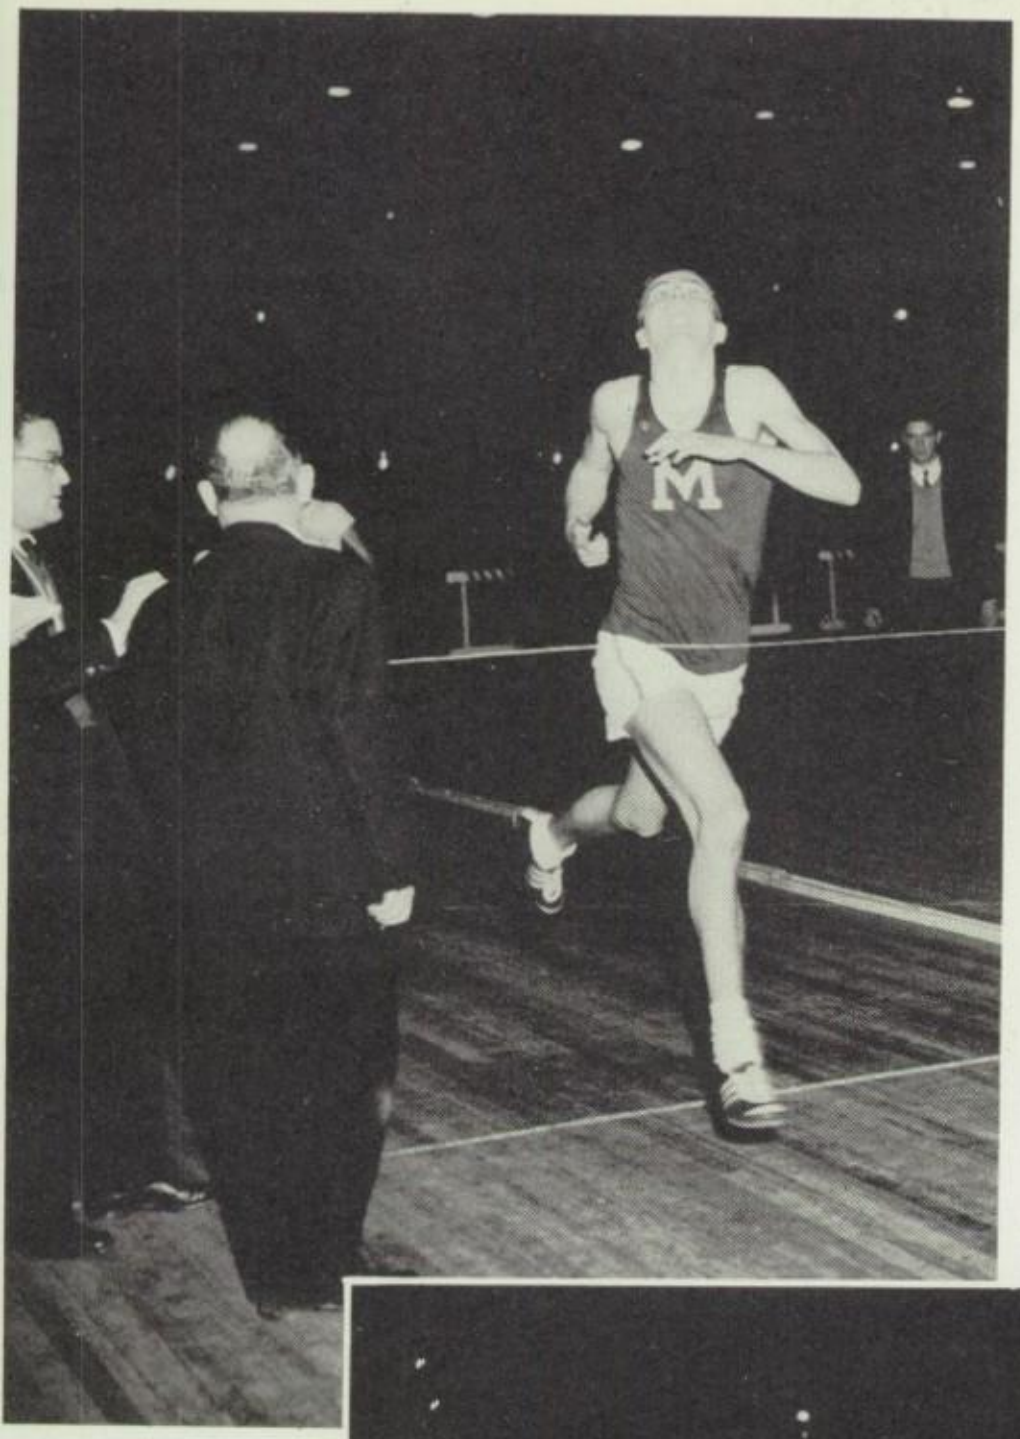
INDOOR TRACK



This season the indoor track team was co-captained by John Reilly and John Hall. In major competition the team was always among the top seven, no mean feat considering there were from 125 to 155 schols competing in many of the meets. The team really came into its own by winning first place trophies in the Iona College meet and the Fordham Prep Relay Carnival.

The main attraction of the team this year was its middle-distance runner, John Reilly. He concluded a very successful season in which he was the only schoolboy runner to go undefeated in major competition. The highlight of the St. Francis Games occurred when he was clocked at 2:17 for the 1,000 yard run, thus setting a new meet record.

At the Bronx, Westchester, Manhattan Sectionals, the Mounties finished third out of twenty-two schools. John Hall ran 52.7 for the 440 yard dash and took third place. On March 7th, the Mount track team successfully completed its indoor season by placing fifth out of thirty-three schools in the City Championships held at Madison Square Garden.

Coach Howie Smith gives some pre-game advice to Fitzgerald, Glaser and Aliotta.

After a number of near misses and many heartbreaks in the past the Mount St. Michael Varsity nine clinched the 1958 City Championship and enjoyed its first undefeated season. Coached by Howie Smith whose unparalleled prowess as a mentor has brought Mount teams many success, the squad worked hard and with great spirit in the short spring practice session.

Taking to the diamond in early April the team easily outstripped their opponents in both fielding and hitting. The teams batting average for the season was well over 300. Their 20-0 record speaks well enough for the pitching staff. Outstanding in this department were Tony Cunnion and Joe Glaser, who each pitched a hurlers greatest desire, a no-hitter.

The final and crucial game of the season took place on June 4th at Coffey Field on the Fordham University campus. In this suspense filled game the Mount nine made a tremendous comeback and defeated archrival Cardinal Hayes for the championship.

With few returning lettermen Coach Smith will be dependent on a number of Juniors to round out this years squad. These players up from the J.V. managed to capture the divisional championship last year only to be nosed out for the city championship by La Salle. With these experienced men the Mount expects to field a good defensive team which also has hitting power.

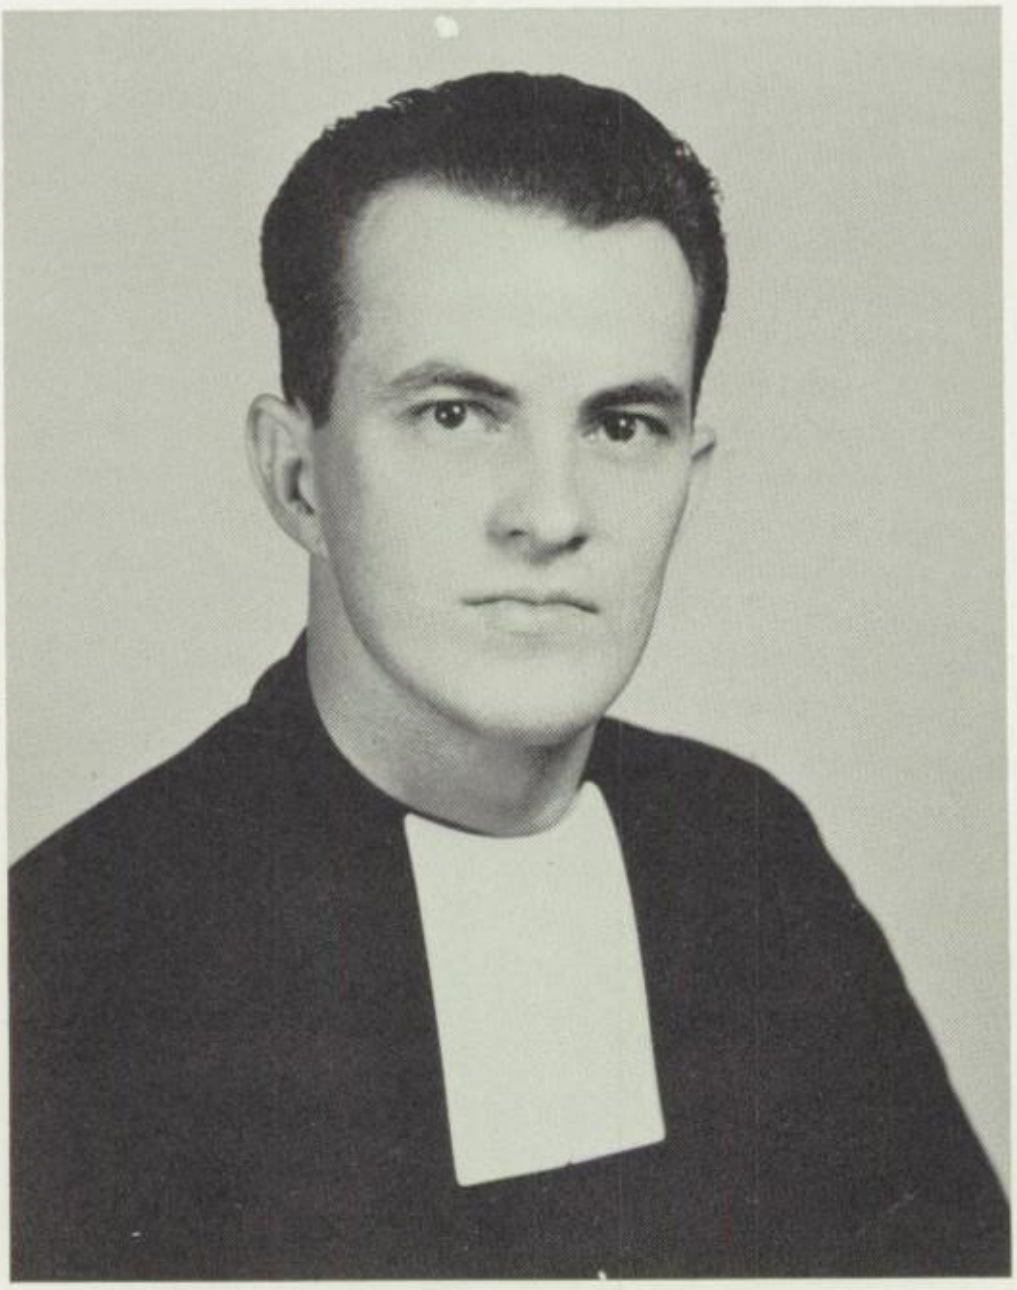
IN MEMORIAM



Brother Michael Damian, F.M.S.

REQUIESCAT IN PACE

"I consider those best qualified to inspire the love of religion whose amiable dispositions, whose kind and amiable manners denote a contented and virtuous heart." — Thus spoke the Blessed Marcellin Champagnat, founder of the Marist Brothers, over one hundred years ago.

Today these words have born fruit in the zealous life and holy death of our devoted Marist educator, Brother Michael Damian. Brother Michael was ever a devoted teacher who eloquently taught his final lesson to his colleagues and students alike in the patient acceptance of his heavy cross of suffering and confident resignation to God's early call to another life.

Acknowledgments

To all those who have so generously helped us to produce the 1959 MOUNTAINEER we wish to express our sincere appreciation and gratitude. In particular we wish to express our thanks to:

The Administration and Faculty for their cooperation in preparing the yearbook.

The students in the various classes who prepared the material for the individual class articles.

M. Doyle of Sophomore D who graciously lent his talent to the staff in the final days of publication.

Mr. John McGuire, of T. O'Toole and Sons, for his unfailing assistance.

The staff of Delma Studios, the yearbook photographers.
